

Comprehensive Oral Health Assessment and Treatment Consent Form

Client Name: _____ Patient Name: _____ Age: _____

Scheduled Procedure: _____ Date: _____

The following is a list of additional treatments/tests that can be added on to you pet's procedure. Please check any and all that you would like to have done while your pet is here.

- I. **Pre-Anesthetic Bloodwork:** Our greatest concern is the health and well being of your pet. Pre-existing conditions not evident during previous examinations may increase anesthetic risk. We recommend all patients undergoing anesthesia/sedation have the appropriate laboratory testing. **All pets 8 years old and up are required to have this testing prior to anesthesia/sedation.**

Please check one of the following:

- Profile 1: Healthy patients under 2 years of age (\$65.00)
- Profile 2: Healthy patients 2-7 years of age (\$89.00)
- Profile 3: Patients over 7 years of age or with questionable health status (\$130.00)
- My pet is less than 8 years old and I DECLINE the above laboratory testing

- II. **Extractions:** Depending on the oral health examination, a veterinarian may need to extract the affected teeth. Cost of extraction is determined by which tooth is affected and the procedure time.

Please check one of the following:

- Do all that is necessary. I am responsible for any associated costs.
- Extractions are okay, but do not exceed \$_____ for extractions
- Call if extractions are needed (if we cannot reach you, extractions will not be performed)
- Do not extract any teeth

- III. **IV Fluids/Catheter:** All patients undergoing anesthesia are recommended to have an intravenous catheter placed to allow for administration of fluids to help support blood pressure and to facilitate emergency treatment if possible. The cost is already included in the base price of your pet's procedure.

- _____(initial) I AUTHORIZE the use of IV Fluids/Catheter while my pet is under anesthesia
- _____(initial) I DECLINE the use of IV Fluids/Catheter while my pet is under anesthesia

- IV. **Microchip Implantation:** Cost also includes registration with Home Again (\$51.50)

- AUTHORIZE DECLINE

- V. **Histopathology:** Submit any excised masses to pathology laboratory for analysis (\$124.00)

- AUTHORIZE DECLINE

- VI. **Laser:** Provides pain relief and promotes healing at surgical site (\$19.50)

- AUTHORIZE DECLINE

- VII. **Nail Trim (\$10.00)**

- AUTHORIZE DECLINE

I have discussed the above listed procedure with my pet's veterinarian and understand the costs involved. In addition to any tests/treatments selected above I understand there may be additional charges including but not limited to Elizabethan collar and take home medications.
